Le superfici battericide e antinquinanti **ACTIVE** crescono nei formati: da oggi sono disponibili anche nelle maxi lastre di 300x150 cm.

Grazie alle loro proprietà le lastre sono ideali per pavimenti e rivestimenti interni, privati e pubblici, eccezionali per facciate esterne dove l'efficacia fotocatalitica è ai massimi livelli.

The sizes of our **ACTIVE** anti-bacterial and anti-pollutant surfaces have grown and are now also available as large tiles measuring 300 x 150 cm.

Thanks to their properties, the tiles are ideal for indoor flooring and wall coverings for private and public use, and exceptional for outside façades on which photocatalytic effectiveness is at its very highest.
